PROFILE SUMMARY

Experienced and results-driven web Development with a proven track record in developing and executing successful development strategies. I am seeking a challenging role where I can contribute my skills in strategic planning, team leadership, and creative problem-solving to achieve business objectives.

WORK EXPERIENCE

System Admin - (MSFDA Pune)

As a system administrator, I was responsible for ensuring the smooth and secure operation of computer systems, servers, and network infrastructure. My role included:

- Installing, configuring, and maintaining servers, hardware, and software systems.
- Monitoring system performance, diagnosing issues, and implementing solutions to prevent downtime.
- Implementing data backup and disaster recovery solutions to safeguard critical information.
- Ensuring network security by managing firewalls, updating security protocols, and applying system patches.
- Providing technical support and troubleshooting for users across the organization.

This role enhanced my problem-solving skills, attention to detail, and ability to handle complex technical environments.

Shopping Website

- Developed a fully functional shopping website using React, HTML, CSS, and JavaScript, with a backend database for storing product information and user data. Implemented features such as product listings, a shopping cart, user authentication, and checkout process. Focused on providing an intuitive user experience with responsive design and efficient state management using React hooks. Worked with RESTful APIs to fetch and update data in real-time.

Techskills: HTML ,Css , JavaScript and React JS

Certificate

- React JS: Code with Random
- FrontEnd : Udemy
- FullStack : Alma Better
